TECHNOLOGY

R & D Industries Inc.

Company Overview

R & D Industries is a 27 year old company with offices in Milford and Des Moines, Iowa. R & D has three divisions, Professional Audio-Visual, Computer Networking and Thinix. Our Audio-Visual division is the premier provider of sound and media systems to houses of worship, schools and courthouses in Iowa and the surrounding area. Our Computer Networking division is the leading provider of enterprise-grade networking software and hardware solutions in Northwest Iowa and beyond. Customers include local schools, utility companies, hotels, courthouses and businesses of all sizes. Thinix is a software and solutions provider to select national and international markets including hospitality, healthcare and enterprise tablet computing users. R & D Industries has consistently grown and frequently has employment opportunities.

Company Opportunity

Positions within the Company

R & D Industries currently has openings for Computer Network Technicians. Computer Programmers are also encouraged to submit their applications for review.

Qualified candidates shall be fluent with Microsoft desktop and server operating systems including Windows XP, Windows 7, Server 2003/2008, and Exchange 2007/2010. Additionally, a solid foundation in networking, network security, Windows domain environments, wiring, and TCP/IP is to your advantage. You should have excellent troubleshooting skills, effective organizational skills, should be comfortable working as part of a team as well as working unsupervised, and should be able to communicate effectively with customers. A Microsoft Certified Professional with a minimum 1 year of experience is preferred. Cisco certification and virtualization certification/experience with VMWare is beneficial. We are looking for strong individuals with significant expertise in these areas.
